The EdgeCraft Story

EdgeCraft Corporation was established in 1985 with a very specific mission; to create the world's best knife sharpener. Upon its launch, the novel Chef'sChoice® Model 100 became an immediate success, acclaimed worldwide for its performance and quality.

Our continuing determination to offer only the world's best is applied to all the products that carry the Chef'sChoice® brand. Whether selecting any of the world-acclaimed Chef'sChoice® sharpeners, adding to your collection of Chef'sChoice® Trizor® Cutlery, or purchasing any of the other innovative Chef'sChoice® appliances, you can be sure that EdgeCraft products are created to perform superbly, last a lifetime and be a joy to own.

Chef'sChoice® – a passion to create the world's best!®

Chef'sChoice® Diamond Hone® Sharpener, AngleSelect® #1520

- Engineered for astonishingly sharp edges on all your Euro/American and Asian knives (15° & 20° class)
- 3-Stage, AngleSelect® system for optimum versatility in providing the perfect edge for each type of knife: kitchen, sports, pocket and serrated knives
- 100% diamond abrasives for sharpening and honing
- Patented flexible stropping/polishing disks for a super sharp, microscopically flawless polished edge

Chef'sChoice® Professional Sharpening Station® #130

- For professional sharpening, steeling or stropping; all types of knives (20° class)
- Sharpens both straight edge and serrated knives
- Resharpens all types of knives– kitchen, household, Asian style, sports and pocket knives
- 3 stages: 100% diamonds in Stage 1, super-hardened sharpening steel in Stage 2 and flexible stropping in disks in Stage 3
- Optimum edge customized for every cutting task

Chef'sChoice® Diamond Hone® EdgeSelect® Knife Sharpener #120

- For straight edge and serrated knives (20° class)
- 3-Stage sharpener– precision angle control

Chef'sChoice® PROFESSIONAL ELECTRIC KNIFE SHARPENERS

Why Are Chef'sChoice® Sharpeners The World's Best?

•100% Diamond Abrasives:
All Chef'sChoice® sharpeners use 100% diamond abrasives; the hardest known material, which sharpens any alloy faster, more efficiently, and will never detemper the edge.

•Precision Guides:
Patented precision guides for accurate control of the sharpening angle and foolproof results.

•Multi-Stage Design:
For the ultimate in edge sharpness and durability.

Chef'sChoice® Diamond Hone® Multistage Knife Sharpener Professional #110

- Incredibly sharp Trizor® edge– tip to bolster
- 3-Stage 100% diamond abrasive sharpener– for edges that stay sharp longer
- Patented Bi-Level® magnetic guides for easy, foolproof sharpening
- Excellent for kitchen, household, sports and pocket knives (20° class)

Chef'sChoice® Diamond Hone® Multistage Knife Sharpener #310

- Razor sharp, double-bevel edges– tip to bolster
- 2-Stage 100% diamond abrasives
- Patented Bi-Level® magnetic guides for easy, foolproof sharpening
- For kitchen, household, fillet and pocket knives (20° class)

Chef'sChoice® MARINE SHARPENER

Revolutionary sharpener specifically engineered for the fisherman and marine enthusiast

Three professional sharpeners in one compact unit:

Chef'sChoice® Diamond Hone® Marine Sharpening Station™ #710

- Three professional sharpeners in one compact unit
  - ✔ **Knife Sharpener** for fish fillet and all your other knives
  - ✔ **Scissor Sharpener** for line cutter scissors
  - ✔ **Hook Sharpener** for sharpening all your fish hooks
- Water resistant IPX-4 rated
- Designed to resist saltwater environment
- Unit cleanable with low pressure hose spray

Knife Sharpener:

- Creates hair splitting sharpness on all your fish fillet and bait knives in seconds!
- Also great for all your other household and sports knives, straight edges or serrated edges
- 100% diamond abrasives sharpen and hone the edge
- Advanced, ultrafine flexible abrasive disks strop the edge
- Precision spring knife guides eliminate all guesswork
- All exposed components are stainless steel or advanced polymers
- On/Off power switch, magnetically operated, with no exposed contacts
- Includes 2 power adapters; 120V AC and 12V DC auto/marine

Scissor Sharpener:

- Professional, manual scissor sharpener specifically engineered for line cutter scissors
- Two stage sharpening system for sharp, long lasting scissor edges
- 100% diamond abrasives for fast and efficient sharpening
- Sharpens without the need to disassemble scissors
- Can be used right or left handed
- All exposed metal parts are stainless steel
- Compact: stores easily in knife sharpener or in your tackle box

Fishhook Sharpener:

- Professional, battery powered (two AA batteries) sharpener for most types and sizes of fishhooks
- Features 3 sharpening tips; two diamond tips for sharpening and one alumina/ceramic tip for honing and polishing
- Pointed diamond tip also clears holes in lure heads
- Compact: stores easily in knife sharpener or your tackle box

Put A Better Than Factory Edge On Asian Style Cutlery

Incorporating highly precise angle controls and the Diamond Hone® technology that has made Chef'sChoice® sharpeners the choice of leading chefs worldwide, Chef'sChoice® Asian sharpeners are the perfect solution for restoring and recreating razor sharp Asian style blade edges.

The Chef'sChoice® Knife Sharpeners For Asian Style Knives are designed to put a durable and razor sharp edge on virtually all double beveled Asian style knives such as the Santoku and Asian cleavers, as well as on single bevel traditional blades, such as Japanese Sashimi knives. They can also create an ultra sharp Asian type edge on European American double-sided blades.

Pl Mt

Model 15

Chef'sChoice® Trizor XV® Sharpener EdgeSelect® #15

- The astonishingly sharp Trizor XV® Edge for ultimate sharpness and effortless cutting (15° class)
- The ultimate sharpener for Asian style knives

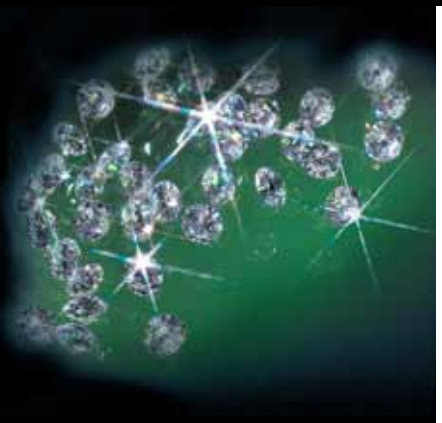
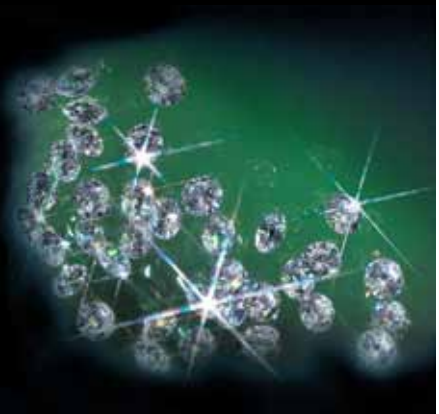
- Separate sharpening and honing stages for razor-sharp edges
- Creates double bevel edges that last longer
- 100% diamond abrasives in all 3 stages: diamonds are the hardest known material, sharpen faster than any abrasives, create stronger edges and never heat or detemper the knife edge
- Sharpens the entire blade length, from tip to bolster or handle



Chef'sChoice® Diamonds– The World's Best

Not all diamond abrasives are created equal. Chef'sChoice® diamond abrasives are selected to perform in torturous, high speed sharpening applications. These high quality 100% diamond abrasives (used in the world acclaimed Chef'sChoice® Diamond Hone® sharpeners) have to maintain their performance while sharpening knife edges at the demanding speed of 3,600 RPM. Although manual sharpening is done at much more civilized speeds, you can take comfort in knowing that all of these superbly engineered products also come with the world's best diamond abrasives.



Chef'sChoice® Diamond Hone® MultiEdge™ 2-Stage Knife Sharpener #460

- Manual sharpener for straight edge and serrated blades
- 2 stages for sharper, longer lasting edges
- 100% diamond abrasives optimized to sharpen straight edge and serrated knives
- Precision roller guides ensure accurate angle control for foolproof sharpening
- Functional and attractive dust cover
- Sharpens entire edge, tip to bolster

Chef'sChoice® Diamond Hone® 2-Stage Knife Sharpener #450

- 2 stages for sharper, longer lasting straight edge blades
- 100% diamond abrasives for the fastest manual sharpening
- Precision roller guides ensure accurate angle control for foolproof sharpening and razor sharp edges
- Sharpens entire edge, tip to bolster

Chef'sChoice® Diamond Hone® 2-Stage Knife Sharpener #440

- 2 sharpening stages for sharper, longer-lasting edges
- Precision roller guides control the angle for razor-sharp edges every time
- 100% diamond abrasives for the fastest manual sharpening
- Fast, easy, and safe to use... with no guesswork
- Sharpens entire edge, tip to bolster

Chef'sChoice® Manual Diamond Hone® 2-Stage Knife Sharpener #433

- Double-bevel cutting edges— the key to knives that stay sharp longer
- Precision roller guides control the angle for razor-sharp edges every time
- 100% diamond abrasives for the fastest manual sharpening
- Sharpens entire edge, tip to bolster

Chef'sChoice® Diamond Hone® Serrated Knife Sharpener #430

- Revolutionary manual sharpener for serrated and "never-need-sharpening" knives
- Realigns serrated edge and sharpens prominent teeth into razor-sharp "micro-blades"
- 100% diamond abrasives for fast results
- Precision roller guides for foolproof sharpening

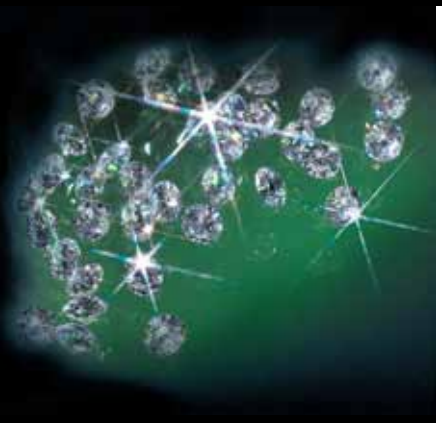
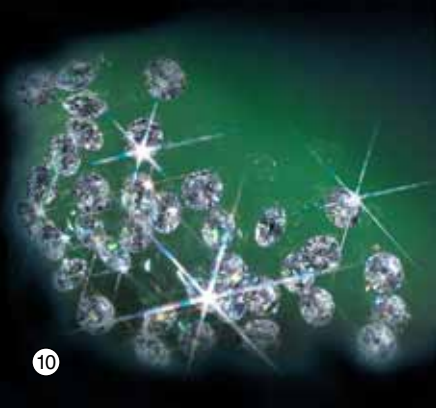
- Safe for quality household, sewing and craft scissors
- Sharpens both, conventional and knife-edge scissor
- Fast, easy to use, no guesswork
- 100% diamond abrasives
- Precision guides
- For right-handed or left-handed scissors
- 2-Stage manual sharpening system



Facts about Chef'sChoice® Diamonds–

- Using a proprietary process, 100% diamond crystals are permanently bonded to a steel support.
- Diamonds, the hardest known material, will abrade all other materials.
- Diamonds are tough and durable… they last and last!
- Diamonds are the most versatile and efficient abrasives.
- Diamonds sharpen more aggressively and quickly without heating the ultrasharp edge.
- With diamonds, there is no need for messy sharpening oils or lubricating liquids.
- Diamond abrasives are available in grit sizes ranging from coarse to ultra-fine.



Chef'sChoice® Diamond Hone® eXact-V® #415 Knife Sharpener

- Professional "V"-Type manual sharpener uses 100% diamond abrasives (20° class)
- Precision, spring loaded angle control guide for razor-sharp edges
- 2-Stage sharpening system
- Base converts into compact, lightweight and portable storage box

EdgeCrafter® #400DS Diamond Sharpening Stones

- The ultimate sharpening stone
- 100% diamonds – ideal grit size for "single stone sharpening"
- Diamonds bonded onto exceptionally flat steel sharpening surface
- Solid hardwood box – precision built
- Rubber feet for secure hold to bench or table
- Available in 3 sizes: 2" x 4", 2" x 6" and 2" x 8"

Chef'sChoice® EdgeCrafter® Diamond Sharpening Steel #416

- Oval shaped, coated with 100% ultrafine diamond abrasives
- Simultaneously steels, hones and realigns knife edge
- Light and perfectly balanced
- Easy grip, non-slip textured handle
- Available in 3 lengths: 8", 10" and 12"

Chef'sChoice® SteelPro® #475

- Designed to replace the hard-to-use traditional butcher steel
- Rugged die cast metal housing for commercial environment
- Super-hardened sharpening steels– non-abrasive process
- Precise angle guides ensure perfect results (20° class)
- Maintains original razor sharp edge as it steels
- Washable; can be rinsed in a sink
- Sure grip handle

EdgeCrafter® Diamond Sharpener/File #420

- Revolutionary sharpener also doubles as powerful multi-purpose file
- MagneLok® magnetic holder – can change diamond pads quickly
- Three 100% diamond abrasive pads: extra fine, medium and coarse
- Ultra-flat abrasive surface
- "Sure-Grip" handle
- Ideal "handyman" tool

Chef'sChoice® Crystal Crafter® #410

- Quickly, easily smooths away nicks, jagged edges
- Works on crystal, bone china, porcelain, ceramic, glass and more
- Half round 4" steel "wand" coated with 100% diamonds
- Non-slip, textured handle

What Does It Take To Make The World's Ultimate Kitchen Knife?

A single-minded dedication to perfection and ultimate performance... qualities epitomized by the Chef'sChoice® name.

A masterpiece created through space age technology combined with old-world craftsmanship; Chef'sChoice® cutlery: the result of an uncompromising search for a steel that would outperform any other... from anywhere in the world. The discovery, unique Trizor® stainless steel, a technologically advanced alloy containing twice the carbon and ten times the molybdenum... so tough it guarantees an ultrasharp edge that stays sharper up to ten times longer than top of the line kitchen cutlery.

This unique alloy is fully forged and painstakingly processed from a single piece of steel, each knife designed for its specific purpose, contoured for perfect balance and control, from the tip of the full-length tang to the computer-designed curve of the blade edge.

Listen to the distinctive "ring" of the Chef'sChoice® blade as you gently tap its tip on a hard surface. Then listen to the tap of any other knife. The ring alone tells the story of a steel so finely wrought, so tough, it stands the challenge of the roughest professional kitchen environment.

Examine the chef's knife bolster. Unlike the conventional thick chef's knife bolster of other forged blades, it is tapered and removed from the blade, allowing sharpening of the full blade edge, thereby maintaining its optimum shape for the life of the knife.

Examine the tight seal between handle and bolster. Chef'sChoice® technology molds the handle from molten polymer onto the full-length tang, creating a barrier to dangerous bacterial contamination... and assuring that the handle is permanently attached.

Feel the specially textured handle, designed for a secure grip, wet or dry. Feel the superb balance of the knife. Like an extension of your hand, its ultra sharp blade cuts effortlessly and cleanly through food.

That's what it takes to make the world's ultimate knife. Trizor® knives cost a little more, but they are worth a lot more.

Unmatched Performance — for those who appreciate the Best Stronger, Longer-lasting Edges!

The World's Best Kitchen Knives — Made in America by Chef'sChoice!

- Multi-purpose stainless steel blade, diameter approximately 7" (17 cm.) slices a wide variety of food
- "Easy-Clean" design - blade, food carriage, food pusher and food deflector all remove easily for cleaning
- Large capacity food carriage retracts fully to permit slicing for extra large roasts, hams and other foods
- Powerful, cool running, high torque motor, gear drive
- Precision slice thickness control slices from deli-thin to approximately ¾" thick
- Serving tray included; weight: 9 lbs., 100 watts

Model 610

Chef'sChoice® Premium Electric Food Slicer #610

- All structural components made of cast aluminum and stainless steel
- Extraordinarily powerful high torque motor with gear drive
- Cantilever design, for large platters and easy cleaning
- Multi-purpose stainless steel blade, diameter approximately 7" (17 cm.)
- "Easy-Clean" design - blade, food carriage, food pusher, food deflector and thickness guide all remove easily for cleaning
- Precision slice thickness control slices from deli-thin to approximately ¾" thick
- Serving tray included; weight: 10 lbs., 100 watts

Model 615

Chef'sChoice® Electric Food Slicer #615

- All structural components made of cast aluminum and stainless steel, including **metal food pusher**
- Extraordinary powerful high torque motor with gear drive
- Tilted food carriage for fast and efficient slicing
- Cantilever design, for large platters and easy cleaning
- Multi-purpose stainless steel blade, diameter approximately 7" (17 cm.)
- "Easy-Clean" design - blade, food carriage, food pusher, food deflector and thickness guide all remove easily for cleaning
- Precision slice thickness control slices from deli-thin to approximately ¾" thick
- Serving tray included; weight: 11 lbs., 120 watts

Model 630

Chef'sChoice® International™ Gourmet Electric Food Slicer #630

- Heavy duty, featuring cast aluminum and stainless steel construction
- Cantilever design for large trays and easy cleaning
- Precision thickness control from deli-thin to approximately ⅝" thick
- Multi-purpose stainless steel blade, diameter approximately 7" (17 cm.)
- High quality gear drive universal motor
- Cartridge design for easy blade removal and clean-up
- Serving tray included; weight: 10.1 lbs., 100 watts

Model 632

Chef'sChoice® International™ Gourmet VariTilt® Electric Food Slicer #632

- Operates in upright or true gravity-feed mode (30° incline)
- Heavy duty, cast aluminum and stainless steel construction
- Cantilever, award-winning design for large trays and easy blade removal and clean-up
- Precision thickness control from deli-thin to approximately ⅝" thick
- Multi-purpose stainless steel blade, diameter approximately 7" (17 cm.)
- High quality gear drive universal motor
- Serving tray included; weight: 10.6 lbs., 100 watts

Model 640

Chef'sChoice® International™ Professional Electric Food Slicer #640

- Commercial quality features, precision thickness control
- Heavy duty, rugged metal construction
- Powerful condenser motor for smooth, extremely quiet gear drive operation
- Cantilever design for large trays and easy cleaning
- Instant response on/off switch built into food carriage
- Precision thickness control from deli-thin to 5/8" thick
- Fully hardened, machined stainless steel blade, diameter approximately 7" (17 cm.)
- Serving tray included
- Weight: 13 lbs., 124 watts

Model 645

Chef'sChoice® International™ Professional VariTilt® Electric Food Slicer #645

- Commercial quality, operates in upright or true gravity-feed mode (30° incline)
- Heavy duty, rugged metal construction
- Powerful condenser motor for smooth, extremely quiet gear drive operation
- Cantilever design for large trays and easy cleaning
- Instant response on/off switch built into food carriage
- Precision thickness control from deli-thin to 5/8" thick
- Fully hardened, machined, stainless steel blade, diameter approximately 7" (17 cm.)
- Serving tray included
- Weight: 15 lbs., 124 watts

Model 662

Chef'sChoice® International™ Professional Electric Food Slicer #662

- Rugged, commercial quality die-cast metal construction
- Tilted design for fast and efficient slicing
- Powerful induction motor for extremely quiet operation
- Precision thickness control from deli-thin to approximately 5/8" thick
- Commercial quality, fully hardened, stainless steel blade, diameter 8.6" (22 cm.)
- Large capacity food carriage for EXTRA LARGE roasts, hams, etc.
- Includes blade sharpener and convenient food tray
- Peak power over ¼ horsepower
- Weight: 29 lbs.

Model 667

Chef'sChoice® International™ Professional Electric Food Slicer #667

- Rugged, commercial quality die-cast metal construction
- Tilted design for fast and efficient slicing
- Powerful induction motor for extremely quiet operation
- Precision thickness control from deli-thin to approximately 5/8" thick
- Commercial quality, fully hardened, stainless steel blade diameter 9.8" (25 cm.)
- Large capacity food carriage for EXTRA LARGE roasts, hams, etc.
- Includes built-in blade sharpener and convenient food tray
- Peak power over ¼ horsepower
- Weight: 32 lbs.
